Enter the corresponding numbers with the images here and overleaf!

Welcome to our second I-Spy Trail for Nether Edge Festival.

Last year many people enjoyed searching for some of the many interesting things in our part of Sheffield, so here are another 21 photos of Nether Edge. All you have to do is match the numbers to the pictures. It's divided into three sections so you can do one section at a time. No prizes, it's for fun and we learn something about our neighbourhood.

Answers will be published in the November issue of EDGE and on-line at the beginning of November.
